Date: October 16, 2024

**Reference: North Water Tower News Release-**

Starting October 16th, the North Water Tower (Located at Shanahan Field) will be taken out of service for a complete interior painting, and other upgrades to comply with the Department of Environment/Great Lakes and Energy (EGLE) standard.

Over the past couple years, the Charlevoix Township Water Department has upgraded their controls/SCADA (Supervisory Controls and Data Acquisition) systems to prepare for this infrastructure upgrade.

During this time while the north water tower is out of service, northside water customers may notice fluctuations in water pressure. This is normal until the water tower is placed back in service (early-mid November).

Any questions or concerns please contact the Charlevoix Township Hall at (231) 547-4611 or the Township Water Department at (231) 497-8369.
